

Global Roadmap for Refugee Entrepreneurship

UNHCR (2022)

“The Global Roadmap for Refugee Entrepreneurship provides strategic guidance for UNHCR and partners to support refugee entrepreneurship, reflecting on available opportunities and global best practices in the field. The roadmap is based on research findings from global and regional desk reviews in Europe, MENA, the Americas, East and Horn of Africa and the Great Lakes, West and Central Africa, Southern Africa, and Asia, with focus on 21 countries. Extensive consultation informed the roadmap involving primary data collection from 47 interviews and 10 consultation meetings with UNHCR country, regional, and global-level staff and partners, as well as with major development actors, and practitioners.”
